

**CASE STUDIES IN TUBERCULOSIS: NURSE CASE MANAGEMENT TRAINING TOOLS
FOR PATIENT SUCCESS
SS4042**

PROGRAM DESCRIPTION: This course is designed to provide public health nurses inexperienced in TB with an introduction to TB case management through case studies which are designed to provide guidance and illustrate key concepts necessary to gain experience in TB case management challenges.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

1. Identify 2 nursing strategies that can be used in managing the care of an individual diagnosed with tuberculosis.
2. Identify 2 public health implications for providing effective case management to an individual with a diagnosis of tuberculosis infection or disease.

FACULTY/CREDENTIALS:

*Catalina Navarro, RN, BSN, Heartland National TB Center
Debbie Onofre, RN, BSN, Heartland National TB Center*

Self-Study (print based):
