System Requirements

To access and view this training event, you will need a computer with internet access. Audio for this web-based training will be through your computer's speakers. We recommend that you check your system for compatibility and connectivity prior to the event. Instructions to test your system will be sent with registration confirmation. If you have any questions about connectivity or audio, please contact lauren.warren-fields@uthct.edu

Target Audience

This webinar is intended for nurses, physicians, and other healthcare personnel who are involved in the screening and evaluation of patients with TB.

Conference Goal

This webcast will enhance the expertise in the prevention and care of TB through the effective screening and evaluation of patients with TB. This activity will provide participants with the most current CDC recommendations for screening individuals for TB using the Interferon Gamma Release Assay (IGRA) blood tests including understanding how IGRAs aid in the diagnosing of TB.

Continuing Education Credit

The University of Texas at Tyler Health Science Center is accredited by the Texas Medical Association to provide continuing medical education for physicians.

The University of Texas Health Science Center at Tyler designates this live educational activity for a maximum of ***1.0 AMA PRA Category 1 credit™***. Participants should only claim credit commensurate with the extent of their participation in the activity.

Our Vision

The vision of Heartland National TB Center is To be the most patient-conscious, professional healthcare organization focused on TB elimination. We pledge to support our public health and private partners to encourage use of safer, shorter, better tolerated TB treatment regimens, to eliminate stigma, and to decrease transmission of TB in our communities.

Our Mission

The mission of Heartland National TB Center is to collaborate with state, local, and public health partners to reduce the impact of TB. We will achieve this goal by: sharing our expertise through state-of-the art trainings addressing all aspects of TB, presenting cutting edge knowledge to public health and private providers to benefit patients and their communities, and designing innovative educational and consultative resources.
